Product Description

[embed]https://youtu.be/2BNx-ww5_Xs?si=A3SvkgCWwH0yvZt[/embed] The JBS Equipment Dump Wagon is a powerful and versatile option for those in need of a heavy-duty hauling solution. Available in Tandem, Tridem, and Quad axle configurations, this dump wagon dominates over its competition with its impressive features and capabilities. With the ability to hold up to an astounding 34,927kg of Silage, this dump wagon ensures that you can transport large quantities of material with ease and efficiency. The Tandem, Tridem, and Quad axle configurations offer flexibility and stability, allowing you to choose the option that best suits your needs. Whether you are navigating rough terrain or maneuvering through tight spaces, the JBS Equipment Dump Wagon provides enhanced control and maneuverability to get the job done. In addition to its impressive hauling capacity, the JBS Equipment Dump Wagon is built to withstand the demands of heavy duty use. Its durable construction and robust design ensure that it can handle the toughest conditions and stand the test of time. This dump wagon is engineered to deliver reliable performance, making it a trusted choice for professionals in various industries. When it comes to efficiency and productivity, the JBS Equipment Dump Wagon excels. Its innovative features and user friendly design make loading and unloading materials quick and hassle-free. With the ability to transport large volumes of material in a single trip, you can save time and increase productivity on your projects.

- Tandem, Tridem, and Quad Axles Available.
- Silage Capacity up to 34,927 kg.
- Hydraulic Lift With 2 Stage Grain Door Tailgate.
- Hydraulic Jack.
