### Product Description

## TREX Bale Shredder — Australian Made - Built To LAST!

Available as a 4 hose machine or 2 hose machine with diverter valve

- Will feed out any large or square bales of hay or silage
- Strong Rear Self Loading With 3 x Bale Tines
- Polyurethane wheel guards, which tip up at second stage to prevent hay build up
- High tensile spikes hinged at base
- Adjustable tow hitch to suit all tractors, parking jack with geared head
- Recycle bin for used baling twine, net and silage wrap
- Low centre of gravity with extra wide axle
- Simple positive loading with square edge tires for side grip
- Breaks biscuits apart and feeds out in windrows
- Separate hydraulically driven beater bars
- It will feed out any size round and square bales in both hay and silage
- Will feed into feed pads or into a windrow over fences along you tracks or paddocks
- Being a small unit it is easier to use on your feed pads than the large silage wagons
- Will fit through 10ft gateways
- The T-Rex will also take up to 4.5 Square mtrs of pit silage with optional rear backing plate

**Optional Extras** - Flotation Tires - Rear Light Kit (Indicators/brakes) - Swivel Hitch On Drawbar - Pit Silage Rear Backing Plate
